

>> FACTS RELATING TO *Cambodia*

VISION & PURPOSE

Our vision and purpose is to benefit children and their communities economically, spiritually and emotionally.

>> PROJECT *Order form*

Years of civil war, external occupation and brutal dictatorships have left Cambodia a struggling, under-developed nation.

The average Cambodian lacks financial security, healthcare and basic education.

More than one-third of Cambodians are forced to survive on less than \$1 USD per day. Children face the most brutal consequences of poverty.

A large portion of the population are illiterate.

Many Cambodian children are malnourished, few attend secondary school and thousands die each year of preventable and treatable disease.

CAMBODIAN HEALTHCARE STATISTICS

- 50% of all children are suffering from chronic malnutrition
- 45% of children under 5 are moderately to severely underweight
- 70% of the population does not have access to safe water
- 83% of the population does not have adequate sanitation

The Breakthrough Centre, in partnership with you, can transform the future of Cambodia's children and as a result significantly impact the future of this nation.

THE BREAKTHROUGH CENTRE PROJECTS

1. Change a Child's Life Project

To provide food, water, clothing, accommodation, healthcare, education and spiritual development for underprivileged and marginalized children.

2. Business Building Project

To provide entrepreneurial and business development education, training and skills.

To provide start up capital for the entrepreneurial poor to start a business and empower them to become self-supporting and self-sustaining.

3. Leadership Development and support Project

Teaching, training and equipping future leaders through ongoing training schools.

Providing quality resource materials for the purpose of educating and developing each leader.

Provide ongoing financial support for leaders and their families.

4. Home Building and Community Development Project

Provide a poor village family the finance to build a home.

Provide a water well for a village family.

Provide water filters to ensure clean drinking water for a family.

Change Cambodia today and become a partner now.
